RULES.

1. These rules may be cited as the Madras Ventilation (Cattle Sheds) Regulations and shall come into force on 1st March 1925.

2. These rules shall apply to Cattle Sheds.

3. In these rules—

(a) Artificial humidification means the introduction of moisture into a room by any artificial means whatsoever, except the use of gas or oil for lighting purposes, or the introduction of steam or water vapour into the atmosphere directly due to the treatment of the floor by water as often in the passage through the machine.

Provided that the introduction of air from outside through mechanical means or means placed outside open windows and ventilation openings at times when the temperature of the room is 80° Fahrenheit or more, shall not be deemed to be artificial humidification.

(b) Hygrometer means an instrument with and dry bulb thermometer complying with the conditions prescribed in rules 11 to 16 of these rules.

(c) Degree of temperature means degrees on the Fahrenheit scale.

(d) Cooling power means the cooling power of the air in cold relative per square centimeter per second as measured by a hot-dry-thermometer.

(e) Kallidharmas means the instrument invented by Professor Leonard Hill, M.A., M.D., and manufactured by John H. & Co., London, for measuring the cooling power of the air.

4. The introduction of artificial humidity into any room in a cattle shed shall cease whenever the wet bulb reading of the hygrometer provided in the room is higher than that specified in the schedule annexed hereto for the wet bulb reading corresponding to the dry bulb reading of the same hygrometer at the same time.

When the dry bulb reading is intermediate between two successive dry bulb readings as indicated in the schedule, the lower of the two dry

both readings shall be deemed to be the dry bulb reading of the hygrometer for the purposes of this rule.

4. *Hygrometer*.—Where there is more than one hygrometer in the room, the average readings of all the hygrometers shall be taken for the purposes of this rule.

5. Rule 4 shall not apply when—

(a) the difference between the wet bulb reading as indicated by the hygrometer in the room concerned, and the wet bulb reading taken with a hygrometer outside in the shade is less than 2° Fahrenheit, or

(b) the cooling power of the air in the room as measured by the wet reading of a wet-bulb thermometer at a height of 5 feet in all usual working places is greater than 11 milliwatts per square inch of surface per second.

6. In any room in which steam is used for the purpose of artificial humidification, its introduction shall cease when the dry bulb temperature of the room exceeds 80° Fahrenheit.

7. In all rooms in which artificial humidification is used, hygrometers on the walls laid down below shall be provided and maintained:—

(a) *Wet department*.—Two hygrometers for each room with less than 500 looms, and one additional hygrometer for every 500 or part of 500 looms in excess of 500.

(b) *Other departments*.—One hygrometer for each room of less than 200,000 cubic feet capacity, and one extra hygrometer for each 200,000 cubic feet, or part thereof, in excess of this.

(c) One hygrometer shall be provided and maintained for taking shade temperatures. This shall be fixed in a position approved by the Inspector.

8. If it is proved to the satisfaction of the Chief Inspector of Factories that in every room in a department, not being a wetting department, of a textile mill, the limits of humidity allowed in the schedule are not regularly exceeded, the Chief Inspector of Factories may, by an order in writing excepting that department from the provisions of rules 4 and 7. The Manager of the Factory shall have a copy of such order posted in the inspection book maintained under rule 4 of the Factories (Amendment) Rules, 1923.

9. A copy of the schedule appended to these rules shall be affixed near each hygrometer and maintained in a legible state.

10. (1) The current wet and dry bulb readings shall be recorded at each hygrometer by competent persons appointed by the Manager of the factory and approved by the Inspector at the following times on every working day:—

- (a) Once between 7 and 9 a.m.
- (b) Once between 11 and 2 p.m.
- (c) Once between 4 and 6 p.m.

(2) These temperatures shall be recorded at the time of making in a pocket note-book in Form I appended to these Rules and entered in a special Humidity Register in Form II appended hereto. The pocket note-book and the register shall be maintained in a clean and legible state. At the end of each week the person making the readings shall sign the register and certify that the readings are accurate and that each hygrometer has been worked in accordance with the rules. The Register and the pocket note-book shall at all times be available for inspection by the Inspector and copies of the entries made therein shall be sent to him whenever he so requires.

(3) The entries made in the Register shall be considered as prima facie evidence of the temperature and humidity of any department but an Inspector may at any time take the correctness of the readings by personal observations.

(4) Every hygrometer maintained in a cotton mill under these Rules shall be given a serial number in the Humidity Register and each number shall be marked on the respective hygrometer and referred to in the pocket note-book.

(5) Forms I and II shall be used for recording the temperatures. Copies of the forms may be had on payment from the Inspector of Factories.

11. Every hygrometer shall be constructed and maintained in the manner mentioned below:—

(a) It shall comprise two concentric and equal in dimensions, scale, and divisions of scale. Each hygrometer shall be mounted in a wooden or metal frame and have a suitable stopcock connecting water.

(b) The wet bulb shall be closely covered with a single layer of fine muslin, kept wet by means of a cotton or glass wick attached to it and dipping into the water of a reservoir. The muslin covering the wet bulb and the wick shall be suitable for the purpose and clean. Precautions to be taken to ensure the wick shall be effectively removed by using the muslin in water.

(c) The length of the wick between the wet bulb and the point where it dips into the water reservoir shall not exceed three inches. The muslin shall be attached to the wet bulb by means of a clip bent so the wick shall not be so tight as to hinder the free flow from the reservoir.

12. Each thermometer shall have the following characteristics:—

(a) The bulb shall be spherical, and of suitable dimensions;

(b) The bore of the stem shall be such that the top of the mercury or alcohol column may be directly defined, and correct readings made at a distance of 2 feet;

(c) each thermometer shall be graduated so that accurate readings may be made up to 120 degrees Fahrenheit;

(d) every degree from 10 degrees Fahrenheit up to 120 degrees shall be clearly marked on the glass of the instrument itself, each fifth and tenth degree shall be marked by longer marks than intermediate degrees, and the number marked opposite each tenth degree, i.e., 50, 60, 70, 80, 90, 100, 110 and 120;

(e) the markings shall be accurate to within 2 degrees at all readings between 50 and 120 degrees.

(f) The accuracy of each shall be certified by the National Physical Laboratory, London, or the Meteorological Service, Madras, and each certificate shall be kept attached to the Humidity Register.

If an Inspector gives notice in writing that a thermometer is inaccurate, it shall be replaced by another of certified accuracy within two months; unless after examination by the certifying authority named above a fresh certificate of accuracy has been obtained within that time, in which case the new certificate shall be attached to the Humidity Register.

13. Every hygrometer shall be so mounted that—

(a) the surface of the dry bulb temperature shall not be exposed by the proximity of water in the reservoir; and

(b) the bulb of each thermometer shall be freely exposed on all sides to the air of the room.

14. Every hygrometer shall be maintained at all times during the period of employment on official working order so as to give accurate readings and—

(a) the waste reservoir and wick of the wet bulb shall be renewed once a week;

(b) the water in the reservoir shall be renewed as frequently as is necessary to keep the stopcock at least half full of water;

(c) the water used shall be distilled, boiled or pure rain water.

NOTIFICATION.

An application has been made to the Land Government by the Municipal Council, Madurai, the Government under the Madras Municipal Electricity License, 1925, for permission to take transmission lines outside the area of supply to their pumping station at Kankakshala and for the grant of the portion of the area within 34 of the Indian Electricity Act, 1910, for the purpose of this line and points for such supply. The Government proposes to make open the license of the power which the Telegraph authority possesses under sections 10 to 19 and 18-A of the Indian Telegraph Act, 1885, subject to the following conditions:—

(1) The telegraph and telephone lines crossing the municipal lines shall be effectively protected to the satisfaction of the Telegraph authority and of the Electrical Inspector to Government.

(2) All such crossings shall be at right angles or as near to right angles as practicable.

(3) In all cases where the telegraph and telephone lines are diverted or altered at the request of the Municipal Council, Madurai, the cost of such diversion or alteration shall be borne by the Municipal Council.

2. Every local authority, company or person desirous of making any communication with reference to the above may do so by letter addressed to the Secretary to Government, Public Works and Labour Department, within one month from the date of publication of this notification in the Gazette. The map showing the route of the transmission line may be inspected at the office of the Chairman, Municipal Council, Madurai.

ACQUISITION OF LANDS.

Witness appears to have stated that the two men mentioned herein resided at the Tarkenton area small town village, Uda, approximately 60 km. Southwesterly from the District Office. The names of the two men are not recalled. It is noted that the road between Uda and the District Office is a dirt path which leads to the Agri-Florida Clinic, where it crosses the railroad tracks. This road is heavily traveled through Uda, and it is likely that many persons would know it. In connection with the provision of section 4 (1) of the Land Acquisition Act I of 1961, as amended by Land Acquisition Amendment Act XXXVIII of 1970, and the Executive Director in General hereby authorizes the District Land Officer, Port Antonio, to visit and interview all persons who are known or suspected to be persons concerned by section 4 (1) of the Act. All persons interviewed shall be asked if they can provide information regarding the persons named above. If such persons are located by the District Land Officer, Port Antonio, within thirty days after the date of publication of a statement in writing of this objective, if any, in the proposed acquisition. Under sections 4(a), 4(b) and 4(c) of the Land Acquisition Act I of 1961, as amended by Land Acquisition Amendment Act XXXVIII of

T. B. RAJAGOPANDRA NUDALIYAR,
Assistant Secretary to Government.

Act St. George, July 22, 1926.
(No. 86, 3143, L. & M.).

No. 855.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that eight temple committees constituted under Act XX of 1925 exist in the Salem district as specified in the annexure and requests the Government to abolish all of them for the reasons stated against each and to constitute a central committee having jurisdiction over all the unexcepted temples in the district.

2. Before issuing a notification as suggested by the board, the Government under proviso (ii) to sub-section (1) of section 18 of the Act call upon the committees referred to in paragraph 1 above to show cause, if any, against their abolition within a month from the date of receipt of this Order. After the expiry of the period the Government will proceed to pass orders on the board's proposals.

ANNEXURE.

NUMBERS AND NAMES OF THE TEMPLE COMMITTEES AND REASONS FOR ABOLITION.

(1) *Mann Taluk, Panchelam Committee*.—The committee has eight temples under its supervision which provide about Rs. 75 annually by way of contribution—too small an amount for the maintenance of an adequate staff. It is reported that the committee has neither a President nor a Secretary and that it has not been doing any useful work for several years past. Moreover the committee is composed of only four members, i.e., a number below the minimum laid down in section 27 of Act I of 1925 two of whom are reported to have resigned their membership.

(2) *Kavalur Taluk, Dhanalakshmi Committee*.—There are 24 temples under the control of this committee which contribute annually to the committee only a very small amount. The strength of the committee is three and is below the minimum laid down in the Act. It is understood that these three members do not meet regularly and that they have not been able to discharge such duties as are expected of them.

(3) *Dhanurpet Taluk, Dhanalakshmi Committee*.—The committee has about 22 temples under its control and the total amount of annual contribution receivable from them is less than Rs. 100. It is understood that the committee has not been in a position to exercise supervision while its strength (2) is below the minimum laid down in the Act.

(4) *Chinnampet Taluk, Dhanalakshmi Committee*.—Eighteen temples are under the supervision of this committee and it is found that on a rough

calculation it cannot realize more than an insignificant sum by way of contribution. It has been brought to the notice of the board that the committee has not met at all for a long time and that its working is slack. Its strength is apparently only 5, one less than the minimum number fixed in the Act.

(5) *Attur Taluk, Dhanalakshmi Committee*.—Nine temples are under the supervision of this committee and about Rs. 120 is likely to accrue from them per year by way of contribution. It is understood that the strength of the committee is five—one less than the minimum number laid down in the Act.

(6) *Narasimhal Taluk, Dhanalakshmi Committee*.—The committee has only nine temples under its control and can realize only about Rs. 240 annually from them as contribution. This amount is not enough to maintain an adequate staff. It is understood that the strength of the committee is five and is thus below the minimum laid down in the Act.

(7) *Tiruchengode Taluk, Dhanalakshmi Committee*.—This committee has eleven or twelve temples under it and the annual contribution it is likely to get from them is not enough to maintain the necessary staff. Though the strength of the committee in this case is sufficient, yet as all its eight members appear to belong to a single community, its administration according to spirit is not viewed with satisfaction by the public.

(8) *Salem, Dhanalakshmi Committee*.—This committee's jurisdiction extends over about 4000 devotees in the three taluks of Salem, Chinnampet and Basipet. The President of the committee has represented that the total contribution realizable for the year 1925 will be about Rs. 350 and that without considerably more funds at the committee's disposal, it is impossible to maintain the requisite staff. It is also understood that almost all the members of this committee live in the town of Salem, a circumstance certainly not conforming to the proper supervision of all the temples under it.

Act St. George, July 26, 1926.
(No. 86, 3291, L. & M.).

No. 856.—The appended opinion of the Advocate-General in regard to the interpretation of the expression "next meeting" in section 50 (4) of the Madras District Municipalities Act, 1920, is communicated to all municipal councils and local boards for information and guidance.

2. The same opinion will apply to the interpretation of the words "next meeting" in section 56 (4) of the Madras Local Boards Act, 1920.

3. In case the chairman of a municipal council or the president of a local board fails to include in the agenda the subject of the re-election of any member under the sections quoted above, the council or the local board concerned may set-aside such without any report from the chairman or president to the authority.

AFFIDAVIT.

CHURCH.

The council may remove a person who has ceased to be a member by absence at meetings of the municipal council at the next meeting of the council. The duty of reporting is not on the chairman but the report is not a condition precedent for the restoration by the council. The next meeting is the next effective meeting. If the effective meeting is adjourned, the adjourned meeting will also be 'next' meeting for all houses as the agenda carried over to the adjourned meeting.

No. 247.—The following modifications are made in the revised model by-laws relating to "Public squares, also—Use of parks, gardens and public places" issued with G.O. No. 237, L. & M., dated 26th January 1923, and published in Part I-A of the *Fort St. George Gazette*, dated 15th February 1923—

BY-LAW 14.

For this by-law and the note thereunder the following shall be substituted, namely:—

"No person shall commit nuisance in such park or garden. Nuisance includes, for the purpose of this by-law, any act or omission which causes or is likely to cause injury, danger, annoyance or offence to the sense of sight, smell or hearing or which is or may be dangerous to life or injurious to health or property."

BY-LAW 15.

For the words "No liquor at any person", the words "no liquor and no person" shall be substituted.

(G.O. No. 2479, L. & P.).

No. 248.—In G.O. No. 2125, L. & M., dated 26th June 1923, the Government published for general information a draft of the amendments which they proposed to make in rule 2 of the rules for the appointment and punishment of Municipal servants as revised in G.O. No. 94, L. & M., dated 21st January 1924. No objection or suggestion having been received, the amendments are now confirmed.

2. The approved notification will be published in the *Fort St. George Gazette*. It should be republished in all the District Gazettes in English and in the Vernacular.

3. The District Translator to Government is requested to furnish the Department, Government Press, with translations of the notification in Tamil, Telugu, Malayalam and Kannada for publication in the District Gazettes.

AFFIDAVIT.

NOTIFICATION.

In exercise of the powers conferred on them by sections 76 and 203 of the Madras District Municipal Act, 1920, the Local Government hereby make the following amendments to rule 2 of the rules relating to the appointment and punishment of Municipal servants published with the notification of the Local Government in the Local and Municipal Department No. 128 at pages 128 and 215 of Part I-A of the *Fort St. George Gazette*, dated 21st March 1923 and subsequently amended—

BY-LAW 14.

1. In rule 2 (a), for the word 'January' the word 'November' and for the words 'in February' the words '15th November' shall be substituted.

2. In rule 2 (b), for the words '1st January' the words '15th November' shall be substituted.

(G.O. No. 2543, L. & P.).

No. 249.—The following modifications are made in the model by-laws relating to Street control—Traffic control issued with G.O. No. 235, L. & M., dated the 22nd January 1923, and published in Part I-A of the *Fort St. George Gazette*, dated 15th February 1923—

(1) In the heading of the by-law the phrase "public streets and roads" should be revised thus: "public roads."

(2) By-law 1.—The following should be substituted for this by-law—

"The District Municipal Council may, by notice, declare any public road or part thereof to be closed

to all or any particular class of traffic in order that the same may be repaired or because it is in a dangerous condition or for the purpose of the general regulation of traffic or other purposes.

No person shall use any such public road or part thereof during the period it is so notified."

(3) By-law 2.—The opening sentence of the by-law should be revised as follows:—

"The District Municipal Council may, with the approval of the Council, declare by notice in the District Gazette that on any specified public road or part thereof no person shall—"

(4) By-law 3.—In this by-law the words "President of the Local Board" should be substituted for the words "President, District Board".

N. KRISHNA RAO BONGSALK,
Secretary.Office of the Controller for Book Examinations,
Madras, 7th August 1926**UNIVERSITY OF MADRAS****YEARLY EXAMINATIONS SEPTEMBER AND OCTOBER 1926.**
NOTICE TO CANDIDATES REGARDING HALL TICKETS.

Candidates for the approaching Intermediate Examinations in Arts and Science and B.A. Degree Examinations who are to be examined at Madras should obtain their hall tickets at the Office of the Controller on or after the date specified below:—

| Examination | Date when hall tickets will be issued. |
|---------------------------|--|
| Intermediate Examinations | From Wednesday, 8th September 1926 |
| B.A. Degree Examinations | Do |

Candidates from colleges in Madras must obtain their hall tickets only from the principals of their respective colleges. Heads of such institutions are requested to forward to this office in the case of Intermediate and B.A. Degree Examinations, about the 15th June, a list showing the names of their candidates as full names in alphabetical order. In the case of the Intermediate Examinations in Arts and Science the list of names should also be arranged respectively, first under the different groups, then under languages as Part I-B taken by the candidates. The B.A. list should be arranged under the different groups.

Candidates for all other University examinations to be held at Madras should obtain their hall tickets at the Senate House a week before the commencement of those examinations.

Candidates for examinations who are to be examined at colleges other than Madras must obtain their hall tickets from the Chief Superintendents at the respective centres.

It is very much to be regretted that candidates with the same name and initials or surnames, will each be differentiated by being numbered (1), (2), or (3) as the case may be and will each be supplied with a mark of identification from the office of the Registrar which they must produce before the authorities issuing hall tickets at the centre concerned.

Communications to the Registrar from candidates regarding information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*.

The results of the various examinations will be published on the date specified below:—

Registrar.

Senate House, 8th August 1926.

CHICAGO UNIVERSITY.**NOTICE.**

The Senate will proceed on the month of August 1927 to the election of a Distinguished Professor of Law for a term of one year, to commence on the 1st August 1928.

The salary of the professorship is \$2,500 per annum and the Professor will be expected to deliver a course of lectures (not less than twelve) on one of the following subjects:—

(1) The History of Hindu Law in the Hindu Age and in Post Vedic times down to the Restoration of Hinduism.

(2) History of Legal Development in India during the period of Mohammedan Administration in India.

(3) Principles and History of Insurance Law with special reference to India.

The salary of the Professor will be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the professorship are required to forward their applications to the Registrar on or before the 1st May 1927, stating on which of the three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures; and, if he so wishes, the same number of copies of his Lectureship Lectures.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or type-written) of the lectures which he proposes to deliver. The copy will be forthwith referred to a Committee of the Faculty of Law, consisting of not more than three members to be chosen by the Faculty, who will examine the same and, before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to the Press as soon as practicable after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on consultation, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

The following candidates are declared by the Staff Selection Board to be eligible for appointment as clerks subject to the proviso that any candidate who is the subject of an Indian State shall, before being actually appointed, obtain a declaration of eligibility under section 96-A of the Government

of India Act. Applications for such declaration should be made by the candidate himself to the Government of India through the Resident or Political Officer for the State of which he is a subject. The names of all except those who have graduated with literature and are therefore exempt from the qualifying examination are arranged for each community in the order of marks obtained at the qualifying examination.

2. Clerks of departments and offices in the City of Madras are required to report from time to time to the Secretary of the Staff Selection Board all the particulars required in paragraphs 3, 4 and 7 of G.O. No. 402, Public, dated 15th May 1925, to enable him to maintain up to date the list of candidates requiring employment. A copy of the list corrected up to date may be obtained on any day by any head of department or office in the City on application to the Secretary.

3. Any candidate on the list who is offered an appointment by the head of a department or office is expected to reply to the offer promptly. If he is not prepared to accept the offer, he should so inform the offeror immediately and give his reasons for his refusal. Delay in replying to offer of appointment causes great inconvenience and the name of any candidate who has taken an undue time to reply of appointment will be liable to be removed from the list.

GRASSROOTS CROP OF THE SEVEN REPORT.

The area sown with summer grassroot in the districts of South Arcot, Chingle, North Arcot, and Tanjore during the five months, January to May 1924, is estimated at 51,566 acres. The area in South Arcot is lower than in previous years but the grassroot was sown in previous years have been largely swept with pulley being in operation under irrigation.

The crop has been harvested in the greater part of the area. The crop was slightly affected by drought in North Arcot and North Arcot. It was normal in Chingle and Tanjore. The yield is estimated at 44,569 tons.

2. The area shown with the early crop of grassroot in the districts of Chingle and Chingle during the seven months January to July 1924 is estimated at 11,800 acres. The area was below normal in Chingle, owing to insufficient rains but the area was slightly higher than usual in the Chingle district owing to the favourable season. For crop suffered from drought in both districts and from the attack of heavy interferences in Chingle. The crop is ready for harvest and the normal factor is estimated at 95 percent. On this basis, the yield would be 11,800 tons.

3. Figures by districts are given below:

(Area in hundreds of acres, i.e., 100 being omitted; yield in hundreds of tons, i.e., 100 being omitted.)

SUGARCANE CROP OF 1924—FIRST REPORT.

(On an average of the five years ending 1924-25, the area under sugarcane in the Madras Presidency has represented 4.5 per cent of the total area under agriculture in India.)

The area planted with sugarcane up to the end of July 1925 is estimated at 16,800 acres against 31,200 acres on the corresponding date of last year, an increase of 6 per cent. The increase in ground is most marked in the South Arcot and is due to the

fairly good supply of water in the irrigation canals at planting time.

2. In the Cisterns, the crop suffered from the severe autumn. In Bellary, the condition of the crop is satisfactory. In North Arcot, the crop suffered from drought and insect attack. In Trichinopoly the season has not been favourable. The condition of the crop in the other districts is generally fair.

3. Details by districts are given below:—

DISSEMINATE ONLY IF 144-25-21001 REPORT.

(On an average of the five years ending 1956-57, the area under jaggery in the Madras Presidency has represented 1.56 per cent of the total area under acreage in India.)

The acreage with pigweed up to second of July 1978 is estimated at 541,280 acres against 398,530 acres on the corresponding date of last year, a decrease of 26 per cent. The decrease occurs in all the important districts except Tampiquan and is due mainly to the early rainfall at sowing time. The greatest reduction in acres is found in Yucatán.

Gadunari, Chinglamai, South Arun, and North Arun where the area fell from 181,800 acres last year to 17,200 acres; the reduction is more in the last three districts is also partly due to the growing popularity of groundnut which is replacing jangli.

2. The crop suffered from drought in China, East, South Africa, China, North Africa, and India. Normal yields may be expected in most of the other districts.

3. Details by district are given in the statement attached.

Calvin is brother of Peter, i.e., 90 have married.

COTTON CROP OF 1925-26—FIRST FORECAST REPORT.

On an average of the five years ending 1924-25, the area under cotton in the Madras Presidency has represented 16.8 per cent of the total area under cotton in India.

The area sown with cotton up to the end of July 1925 is estimated at 214,100 acres as against 225,500 acres on the corresponding date of last year, or an increase of one per cent.

5. The frost in the north does not relate to new sowings but to last year's crops from which some portions will be obtained before 24th September when they will be removed either in compliance with the provisions of the Port Act or to prepare the land for a second crop. The area has increased in Madras, Travancore and Malabar due to the postponement of sowing date of removal from 1st August to the 1st September. There has been a reduction in area in the other districts, especially

in Coimbatore and Tinnevely. In Coimbatore, the average for second sowing was smaller than total sowing in the season, owing to the fact that the frost was not so severe as last year. In Tinnevely, the reduction was due to the fact that the frost was not so severe as last year and that the cotton was not so early sown as last year.

6. There has been an increase in the area under sowing of early cotton in the "Southern" and "Western" tracts owing to the good season in June. But the increase was only a small proportion of the area under cotton in the tract.

There has been a falling off in the area sown in the "Coastal" tract, especially in Ganjam owing to the fall in the price of cotton and to the preference for growing tobacco which is more remunerative.

7. Figures by districts are given in the statement below—
